

Submitting of a clinical case for the database on small supernumerary marker chromosomes (sSMC)

Please submit a case by e-mail using this form - mail to i8lith@mti.uni-jena.de

Important:

- please report only unpublished cases;
- if published later-on, please state the number of the case given in the sSMC database (after submission you will be notified about the number);
- in case you obtain further clinical data on the sSMC case after submission please be so kind to inform me.

Please report all what is available

gender	Male <input type="checkbox"/>	Female <input type="checkbox"/>	n.a. <input type="checkbox"/>
age at diagnosis	prenatal <input type="checkbox"/>		
studied material	chorion <input type="checkbox"/>	amnion <input type="checkbox"/>	blood <input type="checkbox"/>
de novo/inherited	de novo <input type="checkbox"/>	maternal <input type="checkbox"/> paternal <input type="checkbox"/>	n.a. <input type="checkbox"/>
GTG-banding result			
grade of mosaicism	cells with sSMC in %: _____		
final result for the sSMC			n.a. <input type="checkbox"/>
FISH methods applied			n.a. <input type="checkbox"/>
array-CGH (platform)			n.a. <input type="checkbox"/>
Result of uniparental disomy analysis of sSMC sister chrs.			n.a. <input type="checkbox"/>
clinical symptoms none_____ <input type="checkbox"/> fertility problems_____ <input type="checkbox"/> mental retardation_____ <input type="checkbox"/> developmental delay_____ <input type="checkbox"/> facial abnormalities_____ <input type="checkbox"/> other abnormalities_____ <input type="checkbox"/>	space for more details:		

Thanks a lot
